Talk to us for more options.

# Testimonials

Leanne from Southland  
Medical Condition: Muscular Dystrophy  
Primary Use: Office

## The Vela Chair Allowed Leanne to Continue to Work

"I have been using this chair in an office setting since early 2020. The difference this chair has made to me is between continuing to work or having to leave my job. That to me is a big deal, as it is hard enough to find employment when you have a disability. Prior to having this chair my legs and feet were extremely tired and sore by the end of the day and then very restless at night making it hard to sleep. The ability for the chair to lower right down to nearly the floor, has been very helpful to get to the bottom draws of the filing cabinets etc. I no longer have to ask someone for help all the time. Being as independent as possible is a big plus."

Amy from Christchurch  
Medical Condition: Stroke  
Primary Use: Kitchen

## The Vela is an Energy Saver for New Mum Amy

"I love my Vela chair as I've been able to do so much more around the house since I've had it. It's especially useful in the kitchen as the electric lift goes high enough for me to cook while sitting. The brake makes it secure and the footrest is great for when you are up higher. It is so easy to use and the battery lasts for ages until you need to charge it again. This chair has really made my day-to-day life so much easier and allowed me to save my energy for the things I enjoy doing, spending time with my family."

Vicki from Christchurch  
Medical Condition: Multiple Sclerosis  
Primary Use: Kitchen

## My Wonderful Kitchen Help. The Vela Chair!

I have multiple sclerosis which has caused me the need to use a Vela Activity Chair in my kitchen. I met Ian Wylie (M&P Account Manager) the day he brought my Vela Chair. Such a great knowledgeable man who showed me all the functions of the chair. It really surprised me on how easy it is to use. It tilts me forwards towards my bench, will go up and down, swivel around and has a break to safely stop and keep the chair in place. I couldn't be happier with my wonderful kitchen help the Vela chair!
