INDICATION FOR USE							
Ideal for	Ideal for those who have sleep, pain, comfort and positioning issues. Pressure redistribution is achieved through immersion. A non-powered static system no daily maintenance required.	Mattress replacement for home and residential pressure care. Easy and quick setup. Automatic pressure setting and cell in cell to enhance user safety and comfort. Very economically priced.	For all healthcare environments. With automatic weight sensing pressure care. Very easy setup. Economically priced.	A mattress with automatic weight sensing and an enclosed, out of sight pump. A handcontrol allows the user to operate all therapy functions while in bed. With a foam underlay that can be positioned under or on top of the cells as required.	Homecare and professional mattress with the following safety benefits: Auto sensing, fowler boost, bottoming out protection, heel zone, exit alarm and battery backup.	Ideal for those who require improved comfort and potentially changing needs. Hybrid mattress, with step up (with pump) and down (without pump) therapy. Very economical priced.	For those at risk of a heel injury or with an existing pressure injury. Superior technology and benefits versus foam and fibre products.

VICAIR®

Mattress 415

Static aircells in multiple compartments. Ideal for sleep, pain, comfort and positioning.

Versus other static air systems:

- > A Mattress replacement not an overlay.
- > Lower maintenance and improved compliance. No daily monitoring, inflation or pumps required.
- > Individual compartments are adjustable in cell density if required.

Max SWL 350Kg

Also available in wider 1050mm King Single and custom sizes.

novis | BetterLiving™

Alternating air mattress replacement

Intended for homecare and residential care.

- > Very economically priced
- > Automatic weight and pressure setting
- > Cell in cell for enhanced user comfort and safety (prevents bottoming out)
- > Easy to operate and maintain

novis | CairMax Duo

Hybrid foam air mattress replacement

Ideal for those who require more comfort.

Duo equals two separate support options in one mattress:

- Option 1** Without the pump - provides surface pressure distribution. (foam only)
- Option 2** Attach alternating pump for dynamic therapeutic pressure relief (foam + air).

Features

- > Automatic pressure and weight setting
- > Easy to operate and maintain.

ProCair range
Compare the benefits

	ProCair	ProCair Prime	ProCair Plus
AutoCair Automatic weight sensing technology that delivers fail safe patient comfort levels. No more concerns over correct pressure level settings. Manual adjustments can still be made.	✓ Cyclic	✓ Cyclic	✓ Real-time
Quicker Release CPR access Easier quick twist mechanism located at the head of the mattress. Makes it easier to rapidly deflate the mattress for emergency CPR requirements.	✓ Quick Twist	✓ Quick Twist	✓ Quick Twist
Fowler Boost Adjusts mattress pressure to provide increased support under the sacral area when backrest is raised.	✓ Manual		✓ Automatic
SafetyCair The ultimate protection from 'bottoming out', alternating air cells contain a lower 'safety cell' which remains fully inflated to provide greater surface stability and patient safety.	✓ Air Cell	✓ Foam Insert	✓ Air Cell
HeelCair Independent heel zone made up of narrower cells. Designed for individualised therapy to the 'at risk' heel and lower leg area.			✓ Disconnectable
ClimateCair ClimateCair cells are constructed from thermoplastic polyurethane (TPU) material. Not only softer to the touch, the cells offer enhanced heat retention qualities, to maximise patient comfort.			✓
CairAlert Be alerted when your patient leaves the bed with a warning alarm that, when activated, will signal the carer that the patient has left the mattress. Ideal for patients with cognitive dysfunction.			✓
FailSafe An inbuilt Back Up Battery unit provides emergency back up power for continuous operation up to 5 hours. Also ideal for alternating therapy during extended patient transportation periods.			✓
King Single Wider surface for therapy and positioning.	✓		✓
