iTravel

This portable electric wheelchair is ideal for someone who wants to travel and take their mobility with them.

Whether it is to the shopping mall, overseas by plane or ship. It is now a lot easier.

Weighing an ultra light 16Kg without battery, this wheelchair folds in just one move, with the side panels and legrests folding in with the chair.

The iTravel provides a comfortable ride with flip-up armrests with gas pressure spring for easy transfer.
